

I am requesting to keep K-love on the FM dial, rather than displacing it with an LPFM broadcaster. I really enjoy listening to K-love on a daily basis, as it is uplifting music with positive messages and words of hope and encouragement. I think our community needs more positive, uplifting music, and Christian music serves so many people in our community. Broadcasting/music should be available and representative of the diversity in our population, and K-LOVE provides quality broadcasting for the general population.
